EDUCATION

Bachelor of Engineering(BE)

Lakshmi Narain College of Technology

08/2016 - 07/2020

8.53 CGPA

WORK EXPERIENCE

Software Developer

Addverb Technologies

09/2020 - 03/2022

Noida, U.P, India

Achievements/Tasks

- Designed and developed the entire product for the Lift. Lift is a hardware product used in warehouses for the movement of inventories up and down the racks/floors. This is a highly customisable micro-service for different kinds of lifts in different warehouses.
- Designed and developed a generic micro-service that is to be included in operations of all the warehouses to check the status of all the hardware in the network. It gives network reports, automatically checks the status and allows the user to check the working of hardware like PTLs, scanners, profilers, popups, conveyors, etc present in the warehouse.
- Worked on various driving warehouse technologies like Multi Racking Storage, AS/RS and MultiPro(robot shuttle).

Internship

Flipkart Internet Pvt Ltd

06/2019 - 08/2019

Bengaluru, Karnataka, India

Achievements/Tasks

- Being a part of the data analytics function for the product of CX team, I was responsible for designing and developing an NLP model that provided richer insights from the customer text feedbacks. The model computed several metrics and hence quantified the service effectiveness which helped the CX team to identify the improvements required in the customer processes using visual reports.
