EXPERIENCE

Addverb Technologies, Noida — *Full Stack Developer*

AUGUST 2021 - MARCH 2022

Designed and developed micro-services with underlying code written in Java, Spring Boot, JavaScript and ReactJS.

Worked across the Software Development Life cycle of products like Warehouse Management System(WMS), Warehouse Control System(WCS), Network Monitors, Dashboards, etc which are used by clients like Reliance, Flipkart, Cofresh, JK Paper and Par Pharmaceuticals.

Addverb Technologies, Noida — *Graduate Engineering Trainee*

SEPTEMBER 2020 - JULY 2021

Developed software for ASRS and Mobile Robots for overseas clients with more than 10km conveyor length which increases storage efficiency and reduces manpower.

Flipkart Internet Pvt Ltd, Bengaluru — *Internship*

JUNE 2019 - AUGUST 2019

Being a part of the data analytics function for the Customer Experience team,I designed and developed an NLP model that provided richer insights from the customer text feedback. The model computed several metrics and hence quantified the service effectiveness which helped the CX team to identify the improvements required in the customer processes using visual reports.
